

## GRAVITY STATION: GI 116 Denmark / Copenhagen K

Coordinates (° ' "): 55 37 42 12 38 48

Elevation (m): 4.16

Gravity value (mGal):

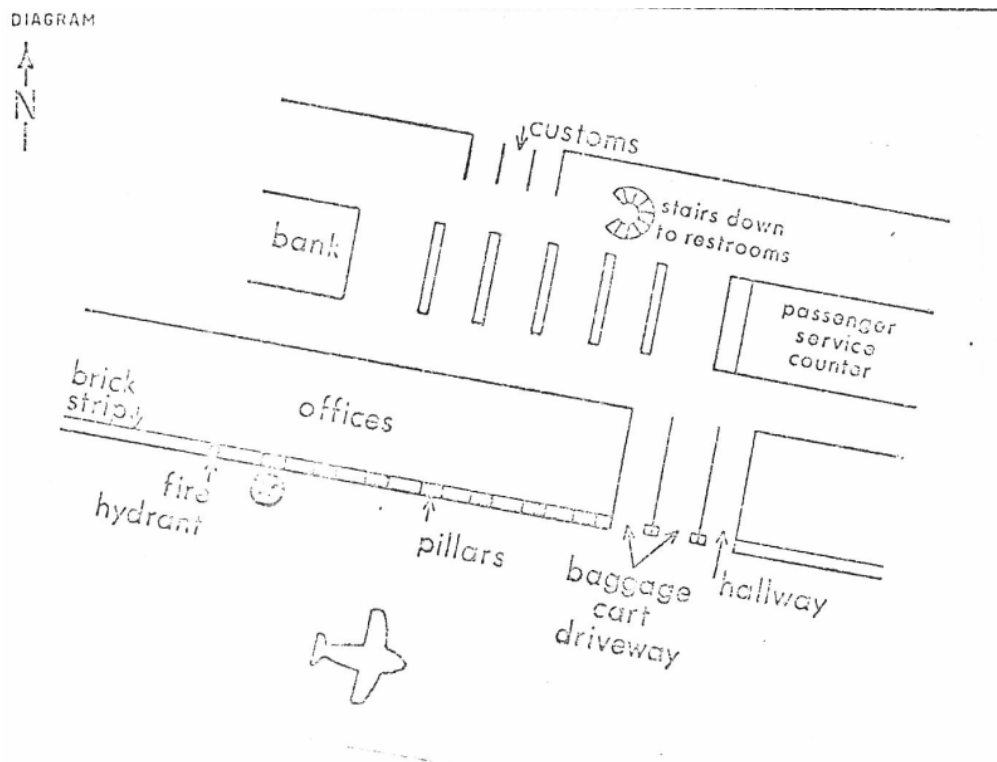

Monumentation: Bronze plate

Katrup Airport (II). The station is located on the field side of the Copenhagen International Airport at the edge of the aircraft parking area and the 4 feet wide brick strip which runs the length of the terminal building. The site is at the 7<sup>th</sup> pillar (with bronze plate, 5.65 meters east of a fire hydrant) west of the baggage cart driveway and approx. 19 feet east of a red fire hydrant at fiel level.

I.G.B. : 21552 K

DO: 9617-63

ACIC: 3002-4

$\epsilon_{IGSN} = 981\ 542.44$

NOTE: Apparently identical to station 113, as measured 1981 and 1982, but gravity value is in error.

Station number 116 is only used for Canadian 1972 and older gravity ties Denmark to Sødre Strømfjord.
