

# GRAVITY STATION: 3396 Thule K

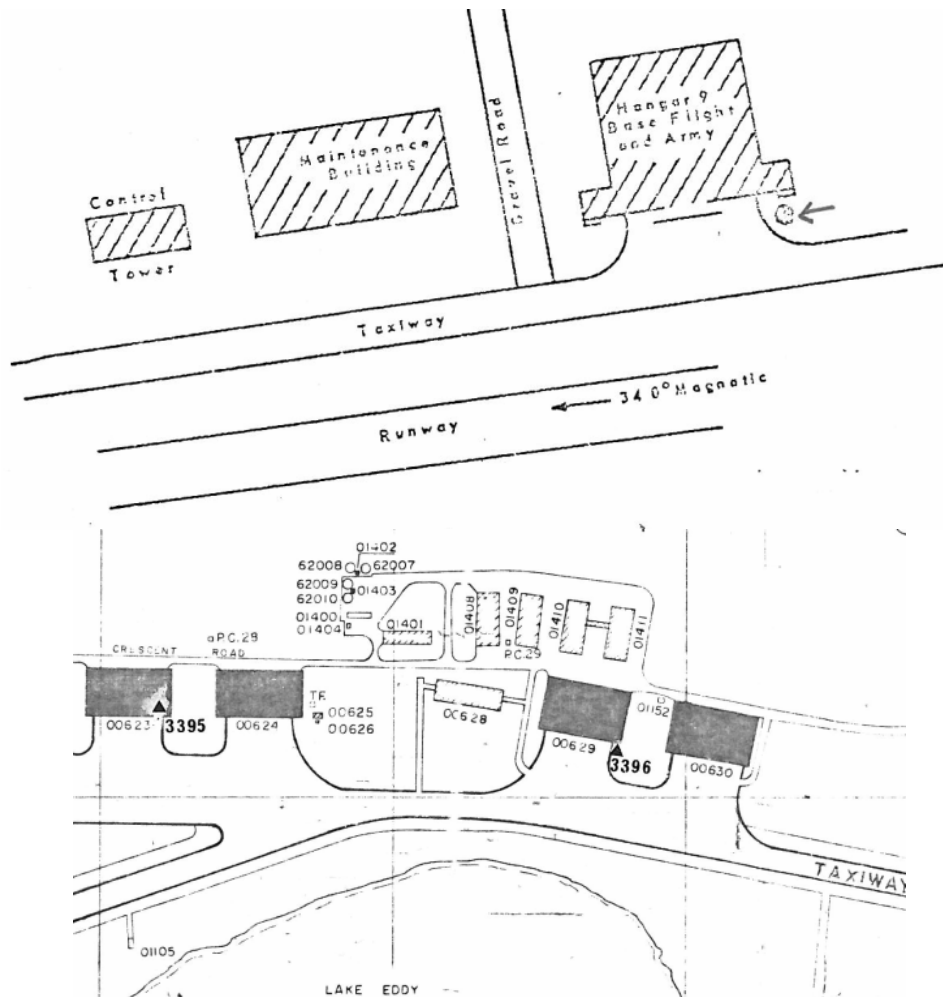

Coordinates (° ' "): 76 32 06 -68 42 18

Elevation (m): 76.5

Gravity value (mGal): 982914.29

Monumentation:

The station is located on Thule Air Base hangar 9, formerly air rescue hangar, now used by Base Flight and U.S. Army. Hangar 9 is the second building (first hangar) east of the control tower. Observations were made outside the hangar on the ground 3 meters south of the eastern end of the large hangar doors, and approx. 3 meters east of the concrete. All directions are relative to true north.

Datum: IGSN71
